MODULAR HANGING LAMP

DNA is the new hanging lamp of SLIDE collection enlightened with LED technology. Designed as a modular element, its curved surface transmits a warm decorative light to add a sophisticated touch to any space. DNA is a large size hanging lamp, ideal for contract and to illuminate wide spaces. Its strength lies in its simple form and in the possibility to compose the DNA modules for realizing spiral structures, to create a tangle of lights, colours and suggestions: a modern "review" of the DNA chain.

Molly

SLIDEStudio

LAMP/STOOL

Molly is a polyfunctional item that can be used either as a lamp or as a stool. It is made of polyethylene, and thanks to its versatility it fits well in contemporary spaces of any kind. Molly's white colour, classic shape, resistance and lightness make it perfect to light up the living spaces with style and essentiality. It works equally well in children's bedrooms and in large public spaces.
